The Rosen Outdoor Sculpture Competition & Exhibition is a national juried competition presented annually by the Turchin Center for the Visual Arts on the campus of Appalachian State University in Boone, North Carolina. Made possible by the generosity of longtime arts supporters Martin and Doris Rosen, this national, juried competition continues a long-held tradition of showcasing the best of large-scale, contemporary American sculpture. Each year, ten sculptures are selected for exhibition, and are situated in outdoor, public settings across campus. A cash prize is awarded to the artist whose work is chosen as that year's Rosen Award winner. Since its establishment in 1987, The Rosen has become an integral part of An Appalachian Summer Festival, the university's annual multi-arts celebration, with the announcement of the Rosen Award winner coming during the festival's annual Sculpture Walk with that year's juror.
